### **EXAMINER'S AMENDMENT**

To clarify the record, the examiner would like to acknowledge that applicants elected Group II in their response filed on 4/26/2006, not Group I as the examiner stated in the office action dated 6/27/2006. It is noted that the restriction between groups I and II has been withdrawn. Previously withdrawn claims 23-28 have been rejoined, and claims 1-10 and 23-28 are allowed.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Barth on December 21, 2006.

The application has been amended as follows:

In claim 1, as filed in the amendment on 9/22/2006, on the second page, line 8, the phrase "in nucleic acid synthesis, or a" has been deleted and replaced by the phrase "in nucleic acid synthesis, and a".

Claims 11-22 have been canceled.

The following is an examiner's statement of reasons for allowance: the prior art is not seen to teach or fairly suggest the claimed bicyclic derivatives, specifically, those which are 2'-4' bridged and also containing the various 3'-azido or -amino groups. The closest art is seen to be Obika et al., of record, however, this is not seen to be available as prior art pursuant to applicants perfecting their priority by submitting a certified translation of the priority documents, as well as the declaration showing the invention was not "by another".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Traviss C. McIntosh whose telephone number is 571-272-0657. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shaojia A. Jiang can be reached on 571-272-0627. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
